PRODUCT DESCRIPTION

Designer: Martín Azúa

Vibia Dots Glass LED Wall Light

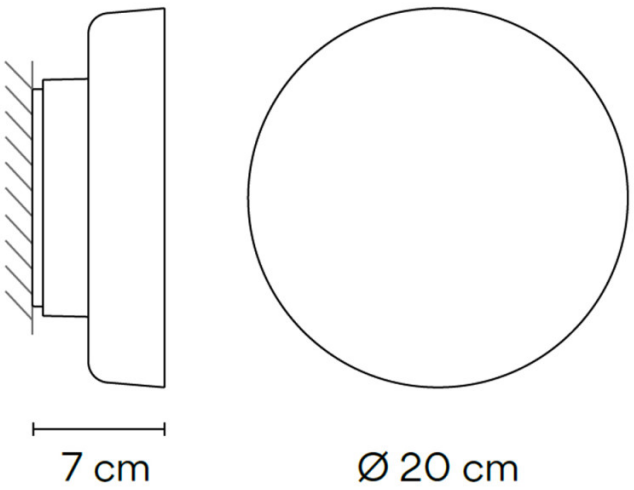

An elegant and functional wall light, the Vibia Dots Glass is sheathed in layers of transparent optical glass, the integrated LED light source is fitted within the fixture and generates a warm glow that is emitted 360 degrees. The layering of the glass and the aluminium detailing at the edge of the discs creates a pulsating ambient illumination and a unique lighting effect.

The IP66 rating of the Vibia Glass Dots LED Wall Light allows it to be installed not only in interior settings but also exteriors and bathrooms. A compact and unobtrusive design by Martin Azua, the Dots Glass integrates into any modern environment, its soft circular tones highlighting the texture of your wall.

This LED wall light is provided with a colour temperature of 2700K, 3500K is available upon request. Vibia also offers a dimmable version, please contact us for further information and pricing.
