PRODUCT DESCRIPTION

Designer: Monika Mulder

Pholc Pearls Pendant

The Pholc Pearls Pendant is a unique lighting solution with a lot of personality. Pearls was designed by Monika Mulder, who was inspired by pieces of jewellery and how they often carry a story about the people who have worn it and the era in which they lived. This luminaire features a teardrop-shaped metal frame that houses either two or three spherical diffusers, each of which is fitted with its own light source and projects a soft ambient illumination that is perfect for a range of interiors.

The Pearls Pendant projects a story about identity and communicates a distinct personality which is perfect for contemporary spaces, both residential and commercial. available in two sizes and two metal finishes, it is a beautiful way to brighten up entryways, living rooms, dining spaces and environments in the hospitality sector such as hotels, galleries and restaurants.
