PRODUCT DESCRIPTION

Designer: Zoe Stark

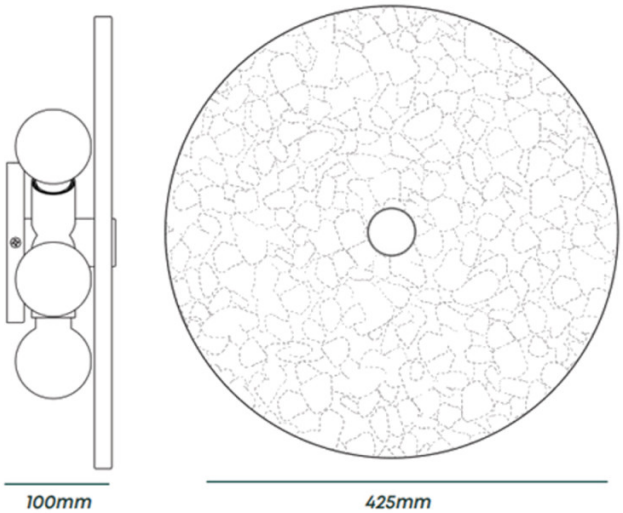

Tala Magma Flush Mount Ceiling / Wall Light

Designed by Zoe Stark to embody the beauty of circular materials, the Tala Magma Flush Mount Ceiling / Wall Light blends sophisticated design with Tala's sustainability ethos. This ceiling / wall light features a decorative diffuser disc made from 100% recycled glass, a sustainable alternative to alabaster, providing an elegant aesthetic. The solid brass frame adds a luxurious touch, while the G70 Dim to Warm bulb creates a soft, diffused glow. This makes it ideal for large residential or commercial spaces where ambient lighting is required.

The Magma Ceiling / Wall Light is perfect for grander rooms, such as living rooms, entryways, or reception areas. The recycled glass disc offers a unique visual texture while promoting circular economy practices.
