PRODUCT DESCRIPTION

Designer: Kristian Sofus Hansen & Tommy Hyldahl

NORR11 Fuji Wall Lamp

The NORR11 Fuji Wall Lamp, designed by Kristian Sofus Hansen and Tommy Hyldahl in 2022, is a sculptural and elegant lighting fixture inspired by Japan's iconic Mount Fuji. The conical shape of the lampshade, crafted from aluminium and opal glass, can appear both perfectly circular or asymmetrical depending on the angle the wall light is viewed at. The opal glass gently diffuses light, creating a soft, translucent glow that imparts warmth to any interior.

Available in two sizes, the Fuji Wall Lamp offers versatility for different room types, whether used as an accent light in living rooms or as a focal point in larger spaces. The soft, organic forms of the lamp blend seamlessly with a variety of decor styles, making it a timeless addition to both contemporary and traditional interiors.

Please note, this product comes with the option of a cable and plug fitting or hardwiring.

PRODUCT SPECIFICATION

Light Source: 1 x Max 8W LED E14 (Excluded)
