PRODUCT DESCRIPTION

Designer: Porta Romana Lighting

Porta Romana Solstice Wall Light

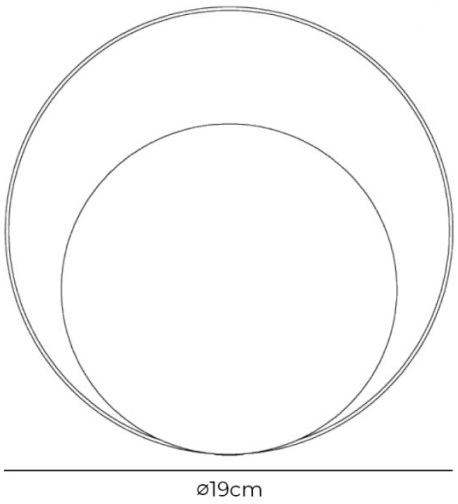

The Solstice Wall Light by Porta Romana evokes the mystery and beauty of a solar eclipse. Featuring two rounds of blistered metal, this piece is designed to give off a light that resembles a semi-eclipse, creating a captivating interplay of light and shadow. Crafted from forged steel and expertly finished in both Blackened Steel and Galactic Gold finishes, this wall light offers a striking decorative element for contemporary and eclectic interiors.

The Solstice Wall Light can be used as a statement piece in hallways, living rooms, or bedrooms. Sitting flush to the wall, and with a modest diameter of 19, it is suitable for a range of spaces, regardless of size. Its minimalist design paired with its dramatic lighting effect makes it ideal for adding a sculptural touch to any setting.

The Porta Romana Solstice Wall Light can be painted in alternative finishes. Please contact us for more information.
