Lee Broom Alchemist Solstice Wall Light

Inspired by the spiritual significance of Stonehenge and the solstices, the Solstice Wall Light brings a sculptural, ancient-meets-modern aesthetic to your space. Featuring a square brass structure that cradles an opal glass globe, the design references the alignment of the sun and the monumental stones of Stonehenge.

The opal glass globe softly illuminates, creating a warm, ambient glow that makes the Solstice Wall Light an elegant addition to hallways, living rooms, or commercial interiors. With a brushed brass finish, this timeless piece blends historical symbolism with contemporary craftsmanship, offering versatility and drama in any setting.
