Bert Frank Eos Wall Light Drop Long

The Eos Wall Light Drop Long by Bert Frank brings a refined sense of elegance and functionality to any setting. Handcrafted in England, this wall light features an elongated design that evokes the classic shapes of chalices and goblets, harmoniously blending traditional craftsmanship with modern aesthetics. Its frosted glass diffuser softens the light, creating a warm and inviting glow, ideal for ambient settings. The brass finish options—brushed brass, antique brass, and dark bronze—add a touch of timeless sophistication, making it versatile for both contemporary and traditional interiors.

Designed to offer flexible lighting, the Eos Wall Light Drop Long is dimmable via Triac dimming, enabling users to adjust light intensity to suit different moods and occasions. Its sleek form and subtle detailing make it a stunning addition to hallways, living spaces, or beside a bed, either as a standalone statement or in a series for a cohesive lighting design. With each component crafted to perfection, this wall light embodies Bert Frank's commitment to quality and the enduring legacy of British manufacturing.
