Brokis Sfera LED Portable Lamp

The Brokis Sfera LED Portable Lamp is a bold expression of minimal design and functional versatility. Created by Czech designer Lucie Koldova, this rechargeable lamp features a perfect handblown glass sphere, offered in Smoke Grey, Smoke Brown, or Triplex Opal, resting within a poured concrete base. Each sphere is available in either a gloss or acid-etched matte finish, adding subtle variation in texture and diffusion. A stainless steel hoop rises above the glass, acting as both visual detail and a practical handle for moving the light with ease.

The base, crafted from high-performance concrete and embedded with glass shards from Janštejn Glassworks, houses a dimmable LED module, a touch-sensitive control, and a USB-C charging port. Wireless charging is also supported. With a warm 2700K light temperature, excellent colour rendering (CRI 93), and up to 5 hours of use per charge, the Sfera Portable offers both beauty and performance. Rated IP44, it is suited for both outdoor and indoor environments, from stylish patios to quiet living spaces.

PRODUCT SPECIFICATION

Light Source: **PC1271:** 3W, 2700K, 379 Lumens
PC1273: 3.5W, 2700K, 433 Lumens

IP Code: 44
