## PRODUCT DESCRIPTION

**Designer:** Omer Arbel

### Bocci 100t LED Table Lamp

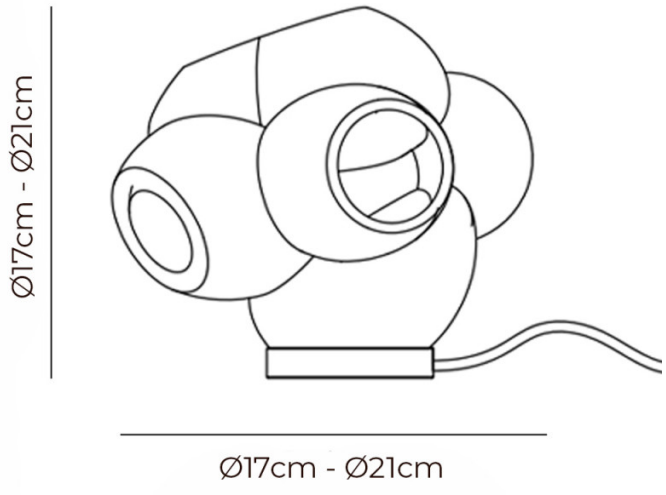

The Bocci 100t Table Lamp is a captivating blend of craftsmanship and artistry, representing the unique approach of Bocci's glass-blowing techniques. Multiple glassblowers work in unison, shaping and fusing clear glass spheres to create intricate clusters that reveal an engaging interplay between the inner and outer surfaces. Using a diamond saw to expose layers within the glass, the 100t series brings an organic, dynamic design that elevates any space.

This table lamp pairs effortlessly with the table light hardware, featuring an integral dimming system embedded within a sleek brass cylinder. The semi-rigid black fabric cord, which can be sculpted to add a customised form, complements the elegant brass base, making the 100t an outstanding piece for both contemporary and classic interiors. Ideal as a standalone statement or part of a curated lighting arrangement, the Bocci 100t brings a sophisticated, artistic touch to any room.

**Please Note: The handcrafted nature of the Bocci 100t LED Table Lamp means that each piece will be unique and will vary in size and shape.**
