PRODUCT DESCRIPTION

Designer: Vilhelm Lauritzen

Louis Poulsen VL45 Radiohus LED Portable Lamp

The Louis Poulsen VL45 Radiohus LED Portable Lamp combines timeless Danish design with modern functionality, paying homage to Vilhelm Lauritzen's original creations for Copenhagen's Radiohuset in the 1940s. This portable version extends the legacy of the iconic VL45 Radiohus pendant, featuring a compact, lightweight design that is perfect for both indoor and outdoor use. With an IP44 rating, the lamp is weather-resistant, making it versatile for patios, gardens, or cosy living spaces.

Available in three stunning finishes, White Opal / Brass, Pale Rose / Brass, and Pale Yellow / Aged Brass, the lamp showcases mouth-blown glass shades paired with brass accents that patina beautifully over time. The integrated LED module offers dim-to-warm technology (2000K-2700K), allowing you to adjust brightness and colour temperature to create the ideal ambience. A touch control on the base ensures intuitive operation, while the USB-C charging port adds modern convenience. Perfect for casual evenings, dining spaces, or as a stylish bedside light, the VL45 Radiohus LED Portable Lamp redefines portable lighting with sophistication and charm.
