PRODUCT DESCRIPTION

Designer: Cristina Celestino

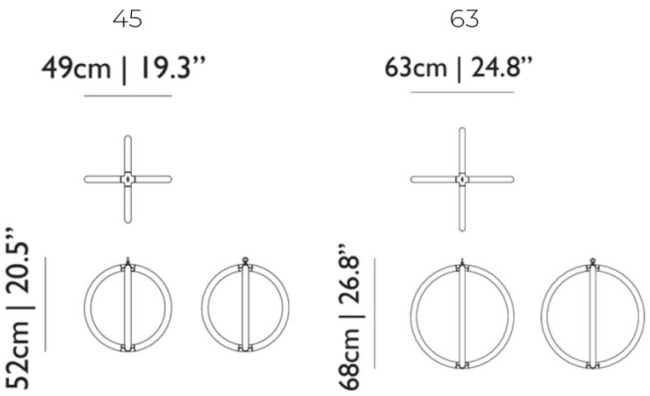

Moooi Luminora Pendant Light

Designed by Cristina Celestino, the Moooi Luminora Pendant redefines lighting as an art form, blending geometric precision with timeless elegance. Inspired by the golden ratio and the heritage of Murano chandeliers, this pendant light creates an optical illusion of glass without using glass. Its faceted polycarbonate tubes, paired with champagne-finished brackets, form a luminous sculpture that exudes sophistication. The V-shaped diamond patterns project a captivating light effect, bringing depth and character to any room.

Available in two sizes, 45 and 63, the Luminora Pendant suits a variety of spaces, from dining rooms to commercial interiors. It features advanced dimming capabilities, compatible with DALI, 0-10V, Wireless Wall Switch, and Push/Pulse dimming systems, providing unparalleled control over light intensity. Perfect as a statement piece or clustered in installations, the Luminora Pendant delivers both functionality and artistic brilliance.
