## PRODUCT DESCRIPTION

**Designer:** Matteo Ugolini

### Karman Atmosphere Ceiling Light

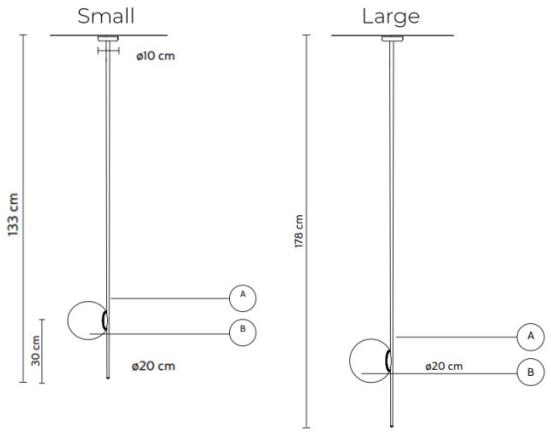

The Karman Atmosphere Ceiling Light, designed by Matteo Ugolini, is a masterful embodiment of minimalism and elegance. Taking inspiration from a blade of grass crowned by a dew drop, this light transforms everyday elements into an artistic expression. The sleek, slender design features a matt glass fibre body, paired with a reflective PMMA sphere that emits a soft, ambient glow.

This ceiling light is a versatile addition to both indoor and outdoor settings, with an IP44 rating ensuring durability in various environments. The unidirectional light source casts a diffused illumination, perfect for crafting serene atmospheres in living rooms, hallways, patios, or gardens.

Available in two sizes (133cm and 178cm) and finishes (matt black and matt white), the Atmosphere Ceiling Light offers flexibility in design and installation. Whether used as a standalone feature or in a cluster, its poetic form elevates spaces with a subtle yet striking presence.
