PRODUCT DESCRIPTION

Designer: Michael Anastassiades

Michael Anastassiades Ball Light Pendant Flex

The Michael Anastassiades Ball Light Pendant Flex is a striking embodiment of minimalism and modernist design. Conceived as an abstraction of the traditional incandescent bulb, the pendant celebrates the perfect spherical form, elevating a functional object into a timeless work of art. Each pendant is meticulously handcrafted using polished brass or plated nickel finishes, paired with mouth-blown opaline glass spheres that emit a warm and inviting glow. The pendant's flexibility lies in its simple yet bold geometry, making it an ideal choice for both residential and commercial interiors. Whether hung individually or grouped in clusters, the Ball Light Pendant Flex creates a captivating visual statement.

Designed with precision and versatility, the pendant features a 2-metre standard flex length, with bespoke options available to suit diverse spaces and layouts. The use of unlacquered finishes allows the material to develop a natural patina over time, adding depth and character to its enduring appeal. Perfect for dining areas, living spaces, or entryways, the Ball Light Pendant Flex combines elegance and functionality, embodying Michael Anastassiades' philosophy of creating lighting that is both beautiful and timeless.

This product is also available in Custom Patina Finishes by request only, please [contact us](#) to discuss pricing and availability.
