PRODUCT DESCRIPTION

Designer: Stefan Diez

Vibia Plusminus Solo LED Floor Lamp

The Vibia Plusminus Solo LED Floor Lamp offers a sophisticated combination of functionality and design, perfect for both residential and commercial interiors. Featuring a semi-spherical aluminium body, the lamp is available in two lighting options: an accent spotlight for focused illumination and a flat diffuser for a softer, general light. The lamp's minimal design is complemented by elegant finishes, including beige, black, and terra red, allowing it to blend seamlessly into any decor.

Ideal for creating ambient lighting in living rooms, reception areas, or workspaces, the Plusminus Solo Floor Lamp is both adaptable and visually striking. Designed by Stefan Diez, this lamp has a built dimming system, providing effortless control over light intensity. Crafted with meticulous attention to detail, this lamp embodies the Vibia ethos of timeless design and functionality.

Please note, a bolt down version as well as 2700K and 3500K versions of this product are available on request, please [contact us](#) for further information and pricing.
