PRODUCT DESCRIPTION

Designer: Sir Kenneth Grange

Anglepoise Type 80 Opal Glass Edition Pendant

The Anglepoise Type 80 Opal Glass Edition Pendant is the newest edition to designer Sir Kenneth Grange's [Type 80 Collection](#). This new edition features the same bold shape and style that's synonymous with the Type 80 Pendant. Sir Kenneth Grange believed that products need to be a pleasure to use, and his concepts evolved continuously as he would reassess the purpose, function and use of each design. The iconic and timeless design of the Type 80 is an excellent example of this ethos, looking striking both when illuminated or not, and adding a comfortable, functional light to any interior.

The Type 80 Opal Glass Pendant features a sleek, conical profile with an opal glass diffuser which filters light into a warm glow that surrounds the shade. Its downward directional light makes it functional for task lighting as well as adding ambient lighting to your home. This pendant can be installed individually or in multiples, hanging above a dining room table or running the length of a hallway. Suitable for lounge areas, kitchens, and hallways, the Type 80 Opal Edition can be used in domestic or commercial spaces to add a touch of contemporary style to any décor.
