PRODUCT DESCRIPTION

Designer: Tom Dixon

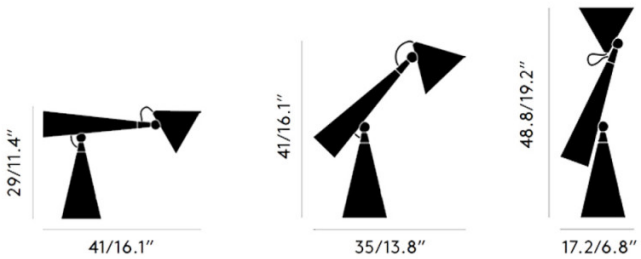

Tom Dixon Pose Table Lamp

The Tom Dixon Pose Table Lamp was designed around conical forms. The playful, strong silhouette conveys a touch of humour while radiating its big personality. Light is magnified from the shade, filling the room with a warm glow. Its adjustable frame allows you to point the light to where it's required, making it a perfect task light for an office desk. The dimmable function allows you to personalise the lighting output, from a bright task light to a softer glow for a more ambient lighting solution.

The Pose Table lamp is available in Indigo, Silver, Kelp, and Putty. These muted tones will blend into a range of decors and personal styles. Its sleek and clean appearance along with the functional light it exudes makes it suitable for both residential and commercial settings. The high-performance light makes the Pose a great lighting solution beside a bed, or a task light in an office. Display on its own or alongside the **Pose Portable Lamp** to create a playful and cohesive display throughout your home.
