PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Pose LED Portable Lamp

Pose is a Portable Lamp from Tom Dixon that plays with conical forms. The versatile series features a strong profile that adds a touch of humour and a strong personality to any interior. The Pose Portable lamp offers the freedom to easily move the lamp to where it's required, free from the ties of any cables. The conical shade features a Fresnel lens that magnifies light, focusing it into an intense beam that illuminates its surroundings. The shade, which balances elegantly on its frame, is adjustable, allowing you to focus light to where it's required.

The Pose Portable is equipped with a three-step dimmable LED. Whether you need a strong task light on your desk to work under, or a softer, ambient glow to illuminate a garden table, the versatile light from the Pose can be adjusted to suit your needs. Available in a selection of finishes, the Pose portable can be displayed on its own, in multiples in a colourful cluster, or with the **Pose Table Lamp** to create a playful display throughout your home.
