PRODUCT DESCRIPTION

Designer: David Derksen

Petite Friture Spline LED Suspension

Designed by David Derksen, the Petite Friture Spline Suspension Light redefines the concept of string lighting with its innovative materials and playful form. Combining nautical influences with mathematical precision, the Spline features a flexible LED strip encased in silicone and suspended from a vibrant textile strap. This unique composition not only provides 360° light coverage but also creates an eye-catching design element for any interior or outdoor setting.

Perfect for creating ambient lighting, the Spline pendant light includes a 10m cable with a touch-sensitive dimmer, allowing for personalised brightness levels. The light is available in two striking two-tone colourways: beige/blue and brown/orange, each spanning over 4.5 metres. With a durable IP65 rating for the LED strip and an IP44 rating for its components, the Spline is designed to endure diverse environments while delivering sophisticated illumination.

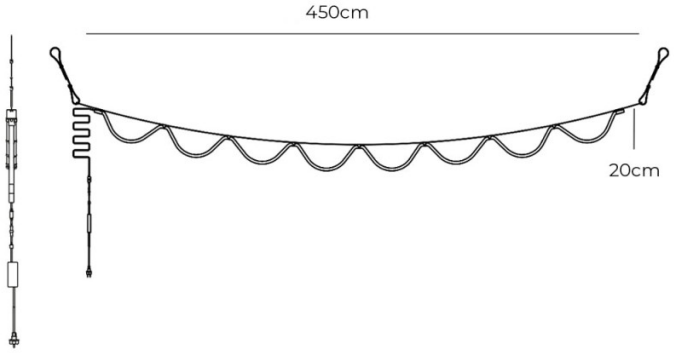

PRODUCT SPECIFICATION

Light Source: 60W, 2700K, 4000 Lumens
