PRODUCT DESCRIPTION

Designer: OEO Studio

Mater Terra LED Portable Lamp

The Mater Terra LED Portable Table Lamp was launched as David Village Lighting UK exclusive, and the result of a collaboration between OEO Studio and Mater. With a shared passion for sustainability, they have created a product that is ecologically friendly. Each piece is made from Matek™, a recycled material formed from post-consumer e-waste mixed with coffee shells or wood waste. The resulting material is durable, rich in colour, and sustainable. Matek's™ qualities allow for seamless integration of the joints and technical elements, giving it a clean and sleek profile.

The Terra Portable Table Lamp features an integrated dimmer, which allows for a three-step dimming process (20%, 50%, or 100%). The charging time is 6 hours, which offers up to 10 hours of use when fully charged. The direct downward lighting makes it a perfect task light on an office desk or coffee table, and the cable-free, portable design makes it easy to move wherever it is required. The minimalistic profile suits contemporary decors in both domestic and commercial spaces, such as hotel lobbies or bars. Combine with the pendant or wall light from the **Terra Collection** to create a striking display in any interior.
