PRODUCT DESCRIPTION

Designer: Aleksandar Lazic

Audo Copenhagen Reverse LED Wall Light

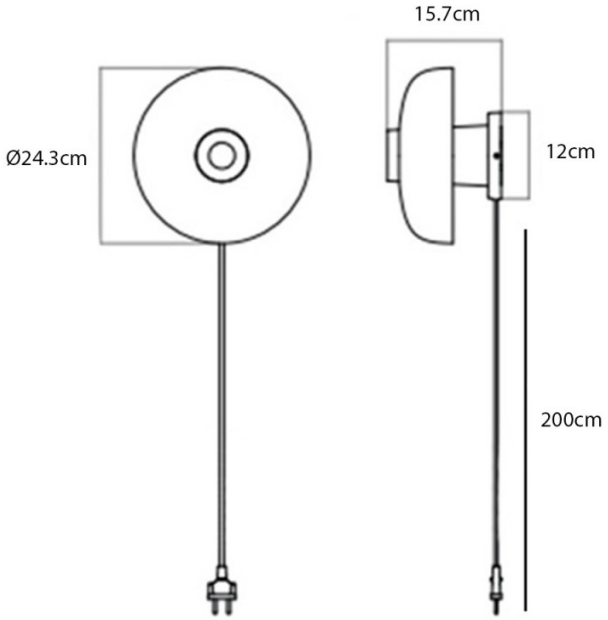

The Audo Copenhagen Reverse Wall Light was designed to celebrate materials in their natural form. Designer Aleksandar Lazic used sculpted travertine for the wall light's conical base, allowing its imperfections to be revealed. The bronzed aluminium shade creates a contrast against the stonework. The smooth, polished surface adds a contemporary edge, creating a dynamic interplay between harmony and tension.

The Reverse Wall Light is available with a dimmable LED light source, allowing you to control the brightness of the light. An opal diffuser creates a warm glow that surrounds the shade, emitting an ambient light that is reflected against the wall it sits on. Perfect for adding ambience to living rooms or filling hallways and staircases in a soft, even light. Its minimalistic look makes The Reverse Wall Light suitable for contemporary domestic interiors or commercial spaces such as hotels or restaurants.

Please Note: The Reverse Wall Light can be hardwired by cutting the cable. Please consult your electrician.

PRODUCT SPECIFICATION

Light Source:	10.5W, 25000K, 330 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Ø24.3cm Depth: 15.7cm Width: 12cm Cable Length: 200cm
