PRODUCT DESCRIPTION

Designer: Ernesto Gismondi

Artemide Ilio LED Wall Light

Artemide Ilio LED Wall Light is a simple yet striking wall fitting, developed from Ernesto Gismondi's original Ilio concept. In the wall lamp version, the section is slanted to allow the cylindrical body to protrude and open up the light onto the surrounding space.

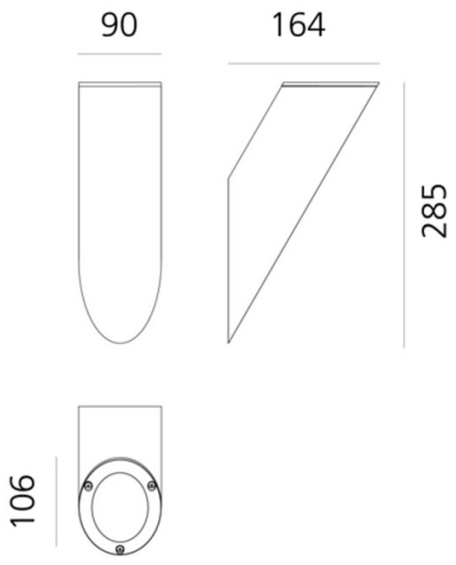

Its shape offers superior efficiency while limiting direct glare, creating an indirect glow that suits a wide range of interiors. With a 3000K output, Ilio Wall provides a warm white light that can support both atmosphere and functional use.

Artemide Ilio LED Wall Light is available in Glossy Black, Glossy White, and Rubin Red, and can be used individually or in rows, depending on the space. Ten years on from the original Ilio design, it remains a highly contemporary solution, optimised with up-to-date technology to deliver strong performance.

Best suited for hallways, dining areas, kitchens, and other interior settings where indirect wall lighting can add soft ambient light with a simple architectural presence.

PRODUCT SPECIFICATION

Light Source:	19W, 3000K, 1740 Lumens
IP Code:	20
Dimming:	Push to make/ switch dimming, dimmable using push to make switches. Please consult your electrician, additional wiring may be required on site.
Dimensions:	Height: 28.5cm Depth: 16.4cm Width: 9cm
