PRODUCT DESCRIPTION

Designer: Omar Carraglia

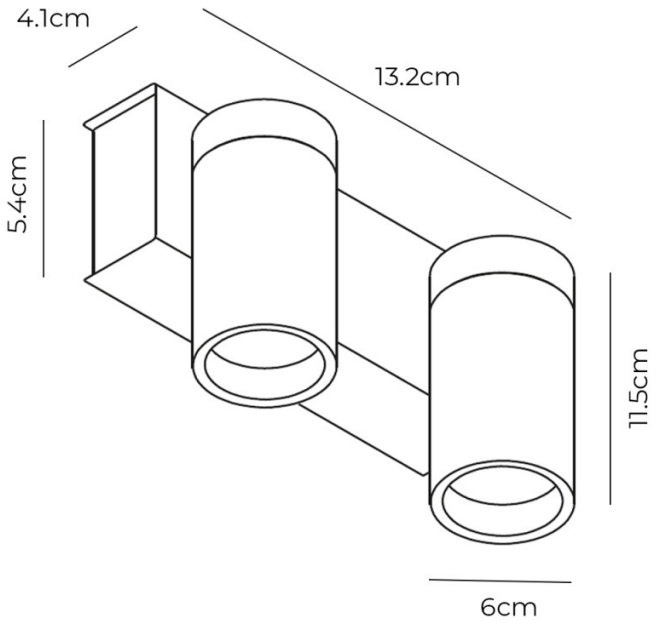

Davide Groppi Dot 51 Dual Emission Double Spot Light

The Davide Groppi Dot 51 DE was designed by Omar Carraglia and is an evolution of the original **Davide Groppi Dot P Wall Light**, now offering two lamp heads instead of one. Both of these lamp heads are adjustable and allow you to direct the lighting output to where you need it most. This makes the Dot Double Surface Light perfect as a task light.

The Dot DE Surface Light is available in either a Matt Black or Matt White finish, and the lamp is entirely structured in painted metal. A luminaire designed to offer superior performance, the Dot is perfect for residential and commercial interiors, especially in home offices, kitchens, bedrooms, hotels, restaurants and libraries.
