Dusty Deco Cornelia Pendant Light

The Dusty Deco Cornelia Pendant Light is a striking blend of natural materials and sculptural design, inspired by the ornate craftsmanship of vintage European lighting. Featuring nine irregularly stacked levels of capiz shells, each piece showcases a unique texture, allowing light to filter through in a soft, warm glow. This intricate layering enhances the organic beauty of the shells, creating a radiant and atmospheric effect.

Crafted with a brassed metal frame, the Cornelia Pendant Light exudes an understated opulence, making it an ideal centrepiece for dining areas, living spaces, and high-ceilinged entryways. The interplay of warm brass tones with the natural translucency of the shells results in a light fixture that feels both timeless and contemporary. Its dimmable functionality allows for adjustable illumination, offering versatility in ambiance and mood-setting.

Designed to complement both modern and classical interiors, the Cornelia Pendant Light encapsulates Dusty Deco's philosophy of blending vintage influences with contemporary craftsmanship. Whether styled in a chic minimalist setting or as part of a layered, maximalist interior, this pendant provides a distinctive focal point with its refined yet organic presence.
