PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Caramel Double LED Wall Light

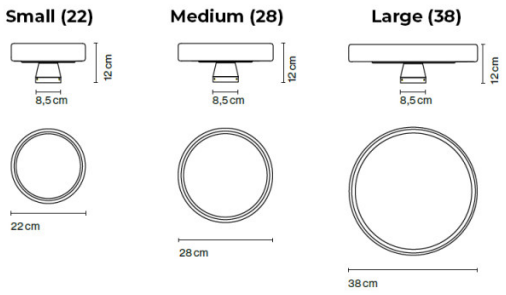

The Marset Caramel Double LED Wall Light takes the elegant simplicity of the Caramel collection and enhances it with a dual-light composition. This unique configuration allows for a customised arrangement, where two individual Caramel Wall Lights can be connected using a sleek black or matt gold accessory. Whether combining two identical sizes or experimenting with contrasting dimensions and colours, this modular fixture offers exceptional design flexibility for both residential and commercial interiors.

Retaining the beautiful hand-blown glass shades of the original design, the Caramel Double emits a soft, warm glow that enhances any setting. The integrated LED source ensures a consistent and efficient illumination, while the trailing edge dimming provides control over brightness levels. Its sculptural form remains impactful whether used as a feature piece in a hallway or a statement lighting solution above a bed or seating area.

With a clean, hardwired installation, this dual arrangement is ideal for hotels, restaurants, or homes looking for a cohesive yet dynamic lighting display. The mix-and-match nature of the Caramel Double allows designers to craft unique lighting compositions, making it as functional as it is artistic.
