PRODUCT DESCRIPTION

Designer: John Astbury

New Works Margin LED Portable Lamp

An addition to the elegant **Margin Collection**, the New Works Margin Portable Lamp utilises the same neutral fabric diffuser and provides a soft ambient illumination, whilst staying true to the graphic silhouette of the series. Designed by John Astbury and released in 2025, this wireless lighting solution emits an evenly diffused glow, making it a beautiful addition to your bedside table, bookshelf, or windowsill, where its soft linen exterior and tuned light will add tactility and warmth. Astbury prioritises simplicity which shines through with the New Works Margin, a modern take on a classic luminaire style.

The Margin Portable Lamp is available in two finishes, a beige canvas or a white canvas, both of which can adapt to both classic and contemporary interiors and prioritise functionality. Margin is fitted with an integrated three-step dim to warm dimmer, allowing you to personalise the brightness and colour temperature of the lighting output.
