PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Burlington 600 LED Wall Light

The Astro Burlington 600 Wall Light is a refined lighting solution inspired by the sophisticated lines of Art Deco design. Its elongated cylindrical form and metallic finishes make it a striking addition to bathrooms, corridors, and vanity areas. Designed for both vertical and horizontal installation, this light adapts seamlessly to different settings, offering both functional and decorative illumination.

Fitted with an integrated LED light source, the Burlington 600 delivers a warm glow with a high CRI, ensuring excellent colour accuracy and an inviting ambience. The dimming compatibility allows users to adjust the brightness to suit their needs, whether creating a soft, atmospheric glow or providing task lighting in front of a mirror. With its IP44 rating, the light is suitable for bathroom zones 2 and 3, offering both safety and style.

Available in Bronze and Matt Gold, the Burlington 600 Wall Light is a versatile choice for both residential and commercial interiors. Whether placed above a luxury bathroom mirror or used in elegant hallways, its sleek and timeless aesthetic makes it a statement fixture in any space.

Please Note: a polished chrome finish is also available, but is subject to an extended lead time. Please contact us for more information and pricing.
