PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Arum LED Portable Lamp

Inspired by the Arum flower, the Arum Portable Lamp is characterised by its curved metal shade, reminiscent of a petal. In addition to giving the Arum its playful and quirky aesthetic, the curved shade also acts as a diffuser. Painted white on the underside, it reflects light into a glare-free, downward directional light, perfect for task-lighting. This portable lamp is rechargeable via USB-C, and once fully charged, it offers up to 24 hours of light, depending on the brightness of the light. Integrated into the base is a three-step touch dimmer, allowing you to adjust the lighting to suit your needs.

The Arum Portable Lamp is available in a wide range of vibrant finishes, including stainless steel, perfect for adding a touch of character to any interior. In 2025, Ferm Living added four bright new finishes to the Arum Portable range: White, Tea Green, Sienna, and Dark Chocolate. These new colourways maintain the collection's signature elegance and balance, while conveying a bold personality. The iron structure is powder-coated, which ensures durability and a sleek, luxurious finish. Its portability makes it perfect for use around the house, where it may be required, from a desk in an office to a bedside table or a reading nook. The Arum Portable has an IP rating of 44, making it splash-proof and suitable for use outdoors or in a bathroom. Display with other products from the **Arum Collection** for a cohesive display of functional lighting that exudes personality.
