PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Vuelta LED Portable Lamp

The Vuelta LED Portable Table Lamp is a portable version of the **Vuelta Table Lamp.** Like its predecessor, the Vuelta Portable features a distinct sculptural arc reminiscent of ancient Roman columns. As well as adding a touch of character, the shade diffuses light into a gentle, glare-free glow. A four-step dimmer is integrated into the product, allowing you to adjust the ambience for any situation. A 1-meter magnetic Pogo-Pin charger (type USB-C on the charger end) is included with the lamp. Once charged, the Vuelta Portable Lamp offers between 8 and 80 hours of light, depending on brightness.

The Vuelta Portable is made from HDPE, which is an extremely versatile and durable material. The playful design makes it a unique addition to any setting, and its portable design means it is easily movable wherever required. The warm, diffused glow is perfect for adding warm lighting to a room, whether used as a nightlight in a kid's bedroom or for creating a cosy ambience in a living room or bedside. With an IP rating of 44, it can also be used outdoors or in the bathroom. Designed with portability in mind, the Vuelta Portable Lamp is a perfect display of craftsmanship and versatility.
