PRODUCT DESCRIPTION

Designer: Ferm Living

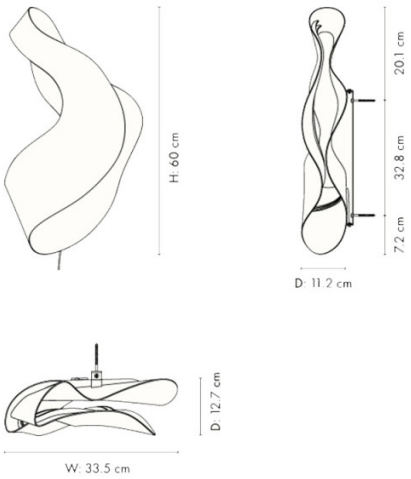

Ferm Living Oyster Wall Light

As the name suggests, the Oyster Wall Light is named after oyster shells found on the beach. The shade is made from 100% recycled aluminium with a black patina. The organic-looking structure of the shade has a coarse texture due to the casting process, adding to the distinctive, rough expression of the design. The Oyster Wall Light is equipped with an 8W dimmable LED strip, allowing you to adjust the brightness of the light to suit your requirements. Dim via the switch on the 2.6-meter cable.

The shade encapsulates the light source, creating a glare-free glow that radiates from within. When illuminated, the inside of the shade is bathed in light, creating a golden glow that emanates life. The outside remains in shadow, the rich, dark finish contrasting against the lamp's warm glow. Install in a living room to create an atmospheric and welcoming lighting. Please note that as this light is equipped with a cable and plug, it needs to be installed near a socket.

PRODUCT SPECIFICATION

Light Source:	8W, 2700K, 730 Lumens
IP Code:	20
Dimming:	In-line dimmer included on the cable.
Dimensions:	Height: 60cm Width: 35.5cm Depth: 12.7cm Cable Length: 260cm
