PRODUCT DESCRIPTION

Designer: Formafantasma

Flos Superwire LED Floor Lamp

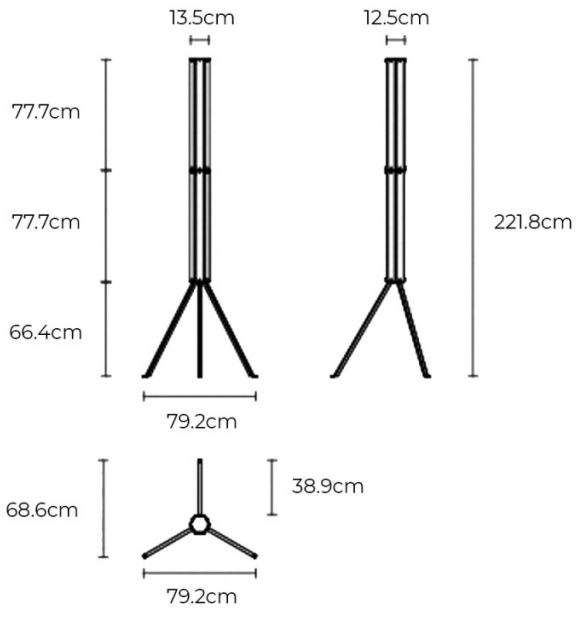

This product is an Offline Only exclusive, available only to buy from selected authorised Flos dealers. Please contact us for pricing or to arrange an appointment to discuss this product in our showroom.

The Flos Superwire LED Floor Lamp is a contemporary lighting solution that adds a unique touch to any interior it is displayed in. Designed by Formafantasma, the Superwire is crafted from planar glass and polished aluminum and showcases an exposed unique LED light source. These LEDs are a custom-made light source that emit a warm illumination and can be easily removed for replacement and repair.

Formafantasma's inspiration for the Superwire Floor Lamp was drawn from more traditional vintage lanterns, whilst incorporating their interest in the work of the great glass masters of the last century. The evenly dispersed warm glow creates a beautiful ambience in a range of residential and commercial interiors - such as living areas, entrance halls, restaurants, hotels and bars. The lighting output can be easily personalised by the in-line dimmer located on the cable of the lamp.
