PRODUCT DESCRIPTION

Designer: Bruno Munari

Artemide Bali Table Lamp

The Artemide Bali Table Lamp was originally designed in 1958 and has since been relaunched by the brand. Bali is a lighting solution with a strong formal identity, defined by essential lines and sustainable materials, boasting a plywood base and a bamboo fibre diffuser - an environmentally friendly alternative to traditional textile solutions. Bali can be easily assembled and disassembled, with the geometric base complemented by an X-shaped metal structure that stretches the diffuser, creating a balance between tension and lightness.

Bali produces a softly and evenly diffused illumination that adds character to almost any interior. The design by Bruno Munari combines aesthetics, technical performance, and a strong commitment to environmental, economic, and social sustainability. A beautiful addition to living rooms, bedrooms, entryways and dining spaces. It is also an excellent way to add gentle lighting to commercial interiors.
