PRODUCT DESCRIPTION

Designer: Bruno Munari

Artemide Bali Pendant

An organic design by Bruno Munari, the Artemide Bali Pendant boasts a strong geometric silhouette and is crafted from bamboo fiber with a metal suspension system, the use of these materials represents a strong commitment to ecological, economic, and social sustainability.. The fabric shade is stretched across an X-shaped structure that pulls the diffuser tight, creating a balance between tension and lightness. The Bali Pendant stands out for its intuitive design: each component, supplied in a compact flat pack, can be easily assembled and disassembled - embodying the synergy between historical design and contemporary sensibility.

The Artemide Bali Pendant can be used in a range of settings, providing an evenly diffused illumination that is also projected down onto the surface below. For this reason it makes an exceptional luminaire for above dining tables, coffee tables and in stairwells for residential properties, as well as illuminating restaurants, bars and cafes in the commercial sector.
