PRODUCT DESCRIPTION

Designer: Henning Larsen

Fritz Hansen HL Wall Light

The Fritz Hansen HL Wall Light is a refined outdoor lighting solution that seamlessly blends functionality with timeless elegance. Originally designed by Henning Larsen, this piece has been illuminating architectural spaces since 1975, maintaining its relevance through its simple yet sophisticated form. The wide, gently curved shade is crafted from brushed copper, an untreated material that naturally develops a rich verdigris patina over time. This evolving surface enhances the lamp's aesthetic appeal while adding an organic element that integrates beautifully with both modern and classical exteriors.

Beneath the copper shade, a transparent acrylic diffuser softly disperses the light, creating a comfortable downward glow that enhances pathways, entrances, and facades. The sturdy powder-coated steel arm, finished in a warm Brown Bronze, ensures durability against the elements, making this an ideal fixture for long-term outdoor use. Whether installed individually as a statement piece or in multiples for a structured lighting arrangement, the HL Wall Light embodies Larsen's mastery of light and space, offering a sophisticated and enduring solution for exterior illumination.

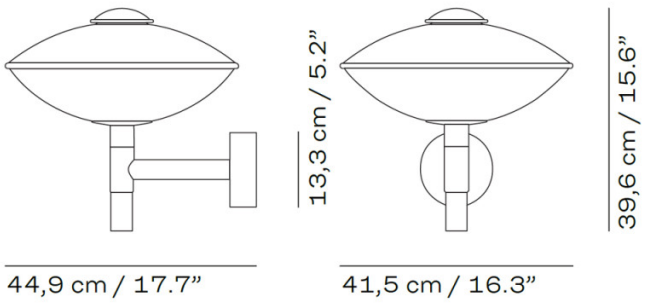

PRODUCT SPECIFICATION

Light Source: 1 x Max 100W E27 (Excluded)

IP Code: 44

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø41.5cm
Height: 39.6cm
Depth: 44.9cm
Wall Mount Height: 13.3cm
