## PRODUCT DESCRIPTION

**Designer:** Ferm Living

### Ferm Living Collect Low Socket Pendant Glass Tall

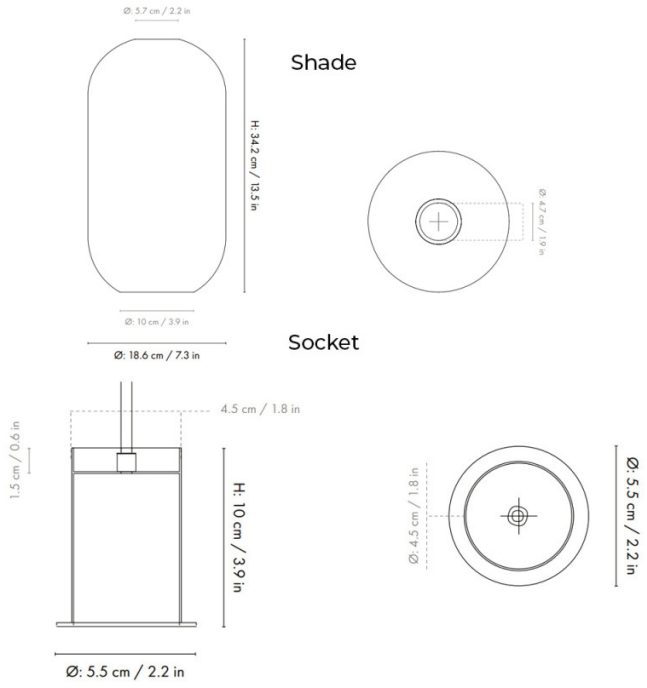

The Ferm Living Collect Low Socket Pendant Glass Tall is an elegant lighting piece designed to bring height and presence to any space. As part of the Collect Lighting series, it features a tall opal glass shade that diffuses light beautifully, creating a warm and inviting glow.

With the low socket keeping the shade closer to the ceiling, this pendant is an excellent choice for spaces with lower ceilings where vertical elements are still desired. The combination of opal glass with the structured metal socket, available in various finishes, adds a refined touch that blends seamlessly into modern and classic interiors alike. Finished with a 3-metre fabric-covered cord, a coordinating ceiling canopy, and a decorative ring, this pendant is both sophisticated and functional.

**Please note, this product is also available in a High Socket version and a Bell Socket version.**
