## PRODUCT DESCRIPTION

**Designer:** Ferm Living

### Ferm Living Collect Low Socket Pendant Angle

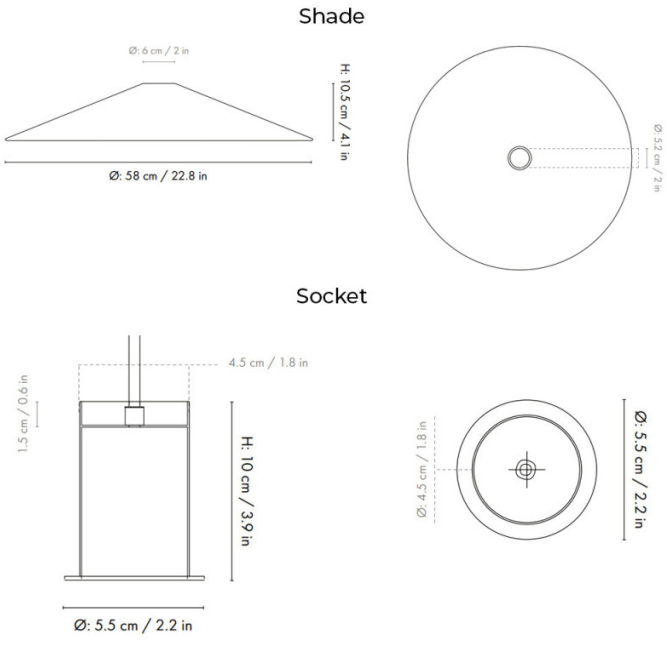

A striking addition to the Collect Lighting series, the Ferm Living Collect Low Socket Pendant Angle features a wide, shallow shade that casts a generous spread of light across surfaces. With its clean, sloped profile and minimalist form, this pendant balances sculptural presence with subtlety, making it an elegant choice for dining tables, kitchen islands or open-plan living spaces.

The low socket design keeps the fixture visually compact, while offering contrast with the broad 58cm powder-coated metal shade. Available in three shade finishes, white, black or cashmere, and five socket options including light grey and brass, this pendant encourages effortless personalisation. A coordinating ceiling rose and 3-metre fabric cord complete the design, while the option of dimmable functionality enables you to adjust light levels to suit the setting.

**Please note, this product is also available in a High Socket version and a Bell Socket version.**
