PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Collect High Socket Pendant Angle

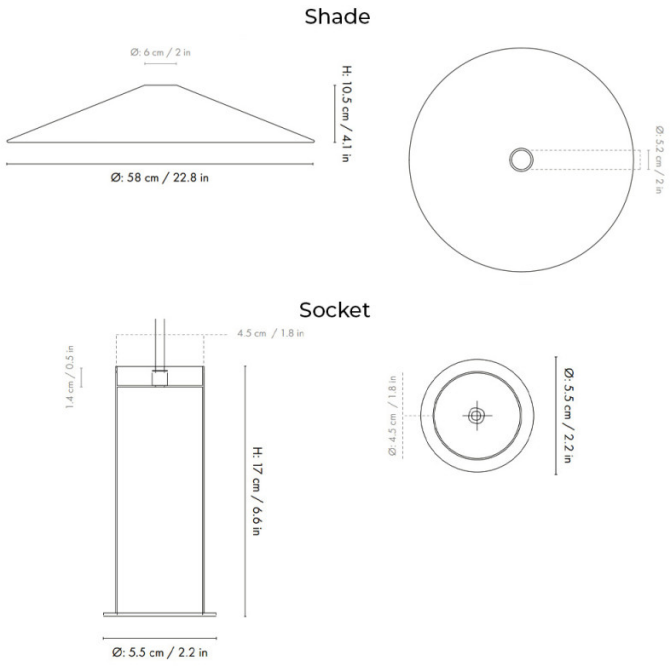

Defined by its broad, gently angled shade, the Ferm Living Collect High Socket Pendant Angle provides expansive ambient lighting with a refined silhouette. The taller high socket design adds visual height, creating a more architectural profile ideal for larger rooms or lofty spaces. With its clean lines and pared-back aesthetic, this pendant is designed to make an impression without dominating the room.

The large 58cm shade is crafted from powder-coated metal and is available in three contemporary finishes—white, black or cashmere. Paired with a high socket in your choice of five finishes, from matte tones to polished brass, the pendant allows for subtle contrast or a tone-on-tone look. Supplied with a matching ceiling rose and 3-metre fabric cable, the pendant is also dimmable for added versatility in home or hospitality environments.

Please note, this product is also available in a Low Socket version and a Bell Socket version.
