PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Collect Pendant

Part of the flexible and refined Collect Lighting series by Ferm Living, the Collect Pendant offers a minimalist and highly customisable foundation for your lighting setup. Available in three distinct styles – Low Socket, High Socket, and Bell Socket – each variant features a clean, powder-coated or brass finish with a decorative metal ring for added refinement. Whether used as a standalone light fixture or paired with one of Ferm Living's many compatible shades, the Collect Pendant brings understated elegance and practicality to any space.

Designed with versatility in mind, this pendant is ideal for hallways, kitchens, or clustered installations. Each socket comes complete with a matching 3-metre fabric-covered cord and a coordinating ceiling canopy, allowing for straightforward installation and a unified finish. The dimming compatibility means the Collect Pendant can be tailored to suit both ambient and task lighting, while the option to add a shade later offers complete freedom in styling. With five refined finishes, White, Black, Light Grey, Cashmere, and Brass, the Collect Pendant is a timeless base for your creative lighting compositions.

Please note, this product is also available paired with a number of different interchangeable shades, as part of the Collect Collection.
