PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Collect Bell Socket Pendant Glass Tall

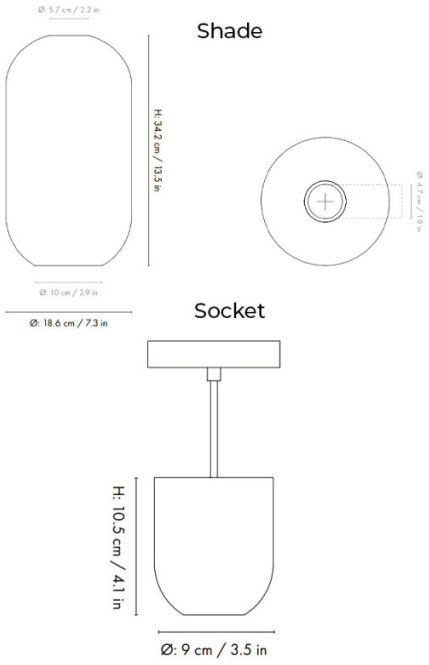

Elegant in proportion and glow, the Ferm Living Collect Bell Socket Pendant Glass Tall pairs a slender opal glass shade with the rounded Bell Socket, creating a balanced composition of height and softness. The tall profile of the glass makes it suitable for vertical spaces or anywhere a sense of elevation is desired, while the diffused light creates a calming effect.

As with all products in the Collect series, the fixture is modular and available in a palette of finish options. It includes a 3-metre fabric-covered cord, coordinating ceiling canopy, and decorative ring. Dimmable compatibility ensures it can be used as both a functional and atmospheric light.

Please note, this product is also available in a Low Socket version and a High Socket version.
