Lodes Random Stick Linear LED
Suspension

The Random Stick Linear is a highly decorative design created by Chia-Ying Lee. Mouth-blown glass diffusers appear to delicately balance on a hexagonal bar, creating an elegant and graceful aesthetic. The bar is available in a choice of glossy black, matte white, and glossy gold. The diffusers are available in a choice of finishes, which can be mixed in numerous combinations to suit your style or décor. This freedom to create multiple lighting effects adds a playful touch to the design and highlights the random aspect of this collection.

The Random Stick Linear features LEDs on the underside of the bar, making it an ideal lighting solution for illuminating surfaces. Available in two sizes, the short linear holds four diffusers and two LEDs, perfect for displaying over a dining room table or desk. The long linear holds six diffusers and three LEDs, making it well-suited to larger spaces such as over a long cocktail bar or creating a dynamic display in retail settings.

PRODUCT SPECIFICATION

- Light Source:** Short: 10W, 3000K, 1600 Lumens
Long: 15W, 3000K, 2400 Lumens
