PRODUCT DESCRIPTION

Designer: Giulia Foscari

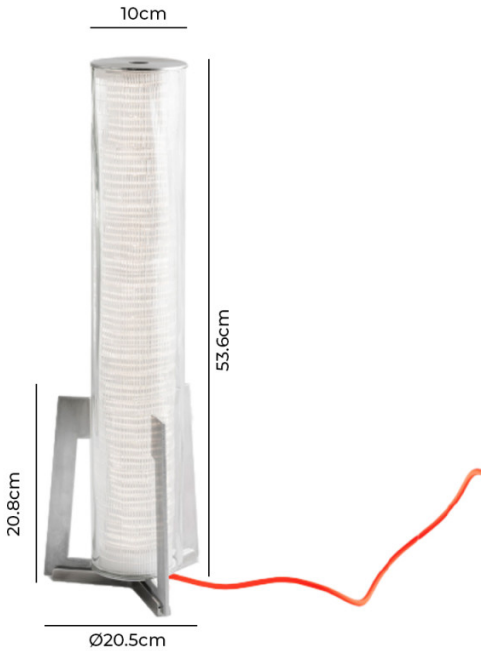

Artemide Criosfera Vertical LED Table Lamp

Balancing optical precision with a poetic concept, the Artemide Criosfera Vertical LED Table Lamp takes cues from the cryosphere, Earth's frozen ecosystems, and the ice cores that help us understand climate history. Designed by Giulia Foscari, this version is a tall, sculptural column of recycled blown glass with a subtly irregular surface texture. Inside, a high-efficiency LED core is optically engineered to diffuse a soft, consistent glow while remaining completely concealed from view.

Standing over half a metre tall, the vertical table lamp makes a refined visual statement on desks, sideboards or plinths. Its minimal cylindrical base is laser-cut for accuracy and stability, and includes an integrated touch dimmer for intuitive control. A meaningful addition to both residential and public interiors, the Criosfera Vertical lamp embodies Artemide's commitment to sustainable materials, human-centred light and climate-conscious design.

PRODUCT SPECIFICATION

Light Source:	17W, 3000K, 2022 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø10cm Shade Length: 53.6cm Base: Ø20.5cm Base Height: 20.8cm Cable Length: 180cm
