PRODUCT DESCRIPTION

Designer: Giulia Foscari

Artemide Criosfera LED Floor Lamp

The Artemide Criosfera LED Floor Lamp extends the poetic narrative of the Criosfera collection into a bold vertical feature. Standing at 160 centimetres, this sculptural light evokes the ice cores extracted from Antarctica, turning scientific symbolism into a powerful ambient presence. Architect and researcher Giulia Foscari combines hand-blown recycled glass with industrial precision, creating a tall, translucent column diffusing warm light without visible glare. The result is a meditative, museum-like piece that draws attention while maintaining an understated presence.

Ideal as a statement lamp in residential or commercial interiors, Criosfera Floor brings atmospheric lighting to corners, reading areas, or reception spaces. A concealed touch dimmer provides seamless control over brightness, while the base, formed from laser-cut surfaces, anchors the design with visual balance and technical elegance. Fusing sustainable material practice with optical clarity, this floor lamp is as much an environmental commentary as it is a lighting solution.

PRODUCT SPECIFICATION

Light Source:	17W, 3000K, 2022 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø10cm Shade Length: 53.6cm Base Height: 124.5cm Base: Ø39cm Cable Length: 220cm
