PRODUCT DESCRIPTION

Designer: Sir Kenneth Grange

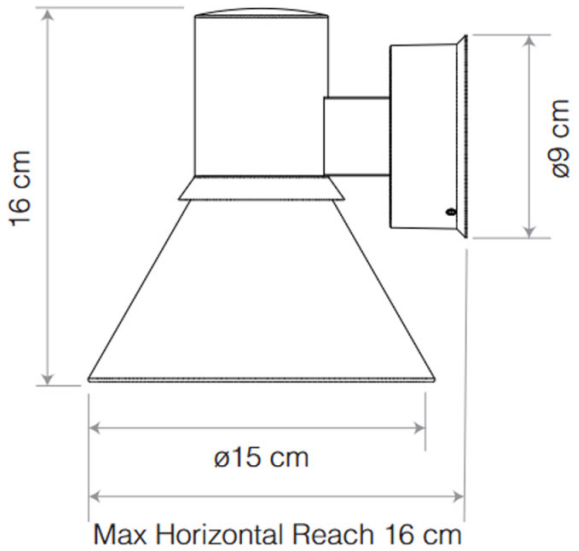

Anglepoise Type 80 W4 Wall Light

The Anglepoise Type 80 W4 Wall Light is an elegant addition to the **Type 80 Collection**, designed by Sir Genneth Grange. Boasting a sleek opal glass shade and metal body, this modern wall fitting has a striking, graphic profile and provides soft, focused illumination. Due to the nature of the shade, the inner light source is not only projected down onto the surface below but may also escape through the sides of the shade, resulting in an even glow that is perfect as a soft reading or task light. Every detail has been carefully considered and precision-engineered to deliver streamlined style and ease of use.

The Anglepoise Type 80 W4 works beautifully when displayed in multiples in hallways and kitchens. Alternatively, combine with other pieces from the Type 80 range for a fully coordinated lighting scheme. The W4 Wall Light is a beautiful addition to your bedside, reading nook and workspace, and the minimalistic colour scheme allows this lighting solution to adapt to a range of interior styles.
