PRODUCT DESCRIPTION

Designer: Gabriele and Oscar Buratti

Foscarini Anoor LED Wall / Ceiling Light

Designed by Gabriele & Oscar Buratti, the Foscarini Anoor is a sculptural LED wall and ceiling light that balances functionality with artistry. Its slightly concave aluminium disc conceals an opaline PMMA diffuser at the rear, casting soft, indirect illumination across surfaces while avoiding glare. When switched on, Anoor emits a powerful yet gentle halo that adds depth and ambience to interiors. When off, its pigmented reflective surface distorts and mirrors its surroundings, transforming into a decorative focal point.

The Anoor collection is available in two sizes, Anoor (48cm) and Anoor Piccola (36cm), and four finishes: Champagne, Gun Metal, Red, and White. The white variant features a powder-coated surface that can be custom painted to suit interior schemes. Suitable for both residential and commercial spaces, Anoor can be installed individually or grouped for visual impact. Its minimal profile and dual functionality make it ideal for entranceways, corridors, bedrooms, lounges, and refined hospitality projects.

Please note, a dimmable version is available for this product. Contact us for pricing and information.

PRODUCT SPECIFICATION
