## PRODUCT DESCRIPTION

**Designer:** Felix Isidorsson

### Northern Glint LED Wall Light

Designed by Swedish designer Felix Isidorsson, the Northern Glint wall light explores our deep-rooted connection to light. Inspired by the quiet comfort light provides, particularly during long Nordic winters, Glint's perforated circular shade casts a soft, glare-free illumination. The integrated LED source sits behind the finely patterned metal, creating diffuse shadows that spread across the wall and ceiling to establish a gentle, ambient atmosphere. Whether installed in a hallway, living room, or bedroom, the Glint wall light lends a sense of warmth and intimacy to its surroundings.

Available in two sizes and three elegant finishes; brushed brass, white or black, the Glint wall lamp is crafted from steel and aluminium with finish-dependent details. Each version includes a 200cm cable with an in-line on/off switch, allowing for easy installation as either a hardwired or plug-in fixture. With its minimal form and calming light output, the Northern Glint wall light is well-suited to residential interiors and hospitality settings alike, used solo or in pairs to create rhythm and mood across a space.

**Please note, this product comes with a cable and plug as standard but can be hardwired by an electrician.**

## PRODUCT SPECIFICATION

**Light Source:** 8W, 2700K, 800 Lumens

**IP Code:** 20

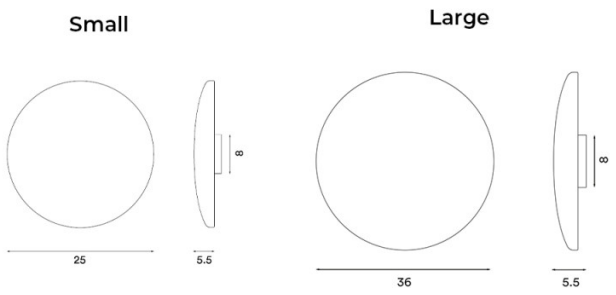

**Dimming:** In-line on/off switch included on cable.

**Dimensions:**

**Small:**
Shade: Ø25cm
