PRODUCT DESCRIPTION

Designer: Estudi Manel Molina

Bover Skybell Plus A/01 Wall Light

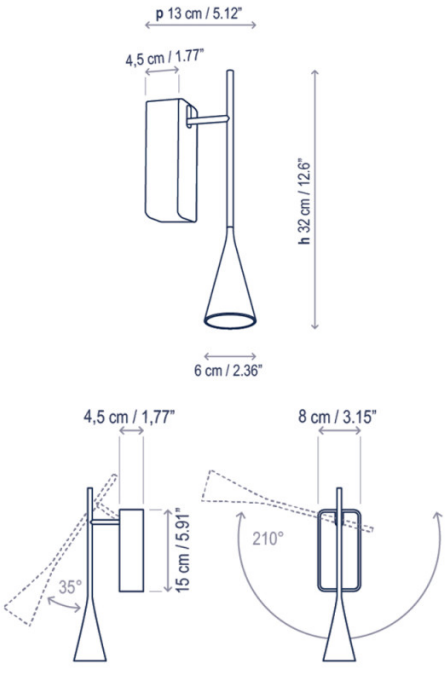

The Bover Skybell Plus Wall Light is inspired by subtlety and joy, and reduces the concept of the wall lamp to its essence: the bell. A minimalistic object that does not want to be the centre of attention, but can still provide outstanding functional lighting. The Skybell Plus A/01 is fitted with an energy-efficient LED light source that is concealed within the aluminium lamp head, and can be dimmed depending on the requirements of your space.

Designed by Estudi Manel Molina, the Skybell Plus A/01 Wall Light allows the user to adjust the direction of the illumination to offer luminance where it is needed most. This contemporary wall light is an excellent addition to the bedside, offering glare-free reading lighting, as well as hallways, living rooms, dining areas and kitchens.

Please Note: A touch dim version of the Bover Skybell Plus is available upon request, featuring an integrated dimmer on the wall mount. Please contact us for more information and pricing.
