PRODUCT DESCRIPTION

Designer: Felix Isidorsson

Northern Glint Glass LED Wall Light

A soft evolution of Felix Isidorsson's original Glint design, the Glint Glass LED Wall Light swaps the perforated metal shade for a beautifully rounded, mouth-blown opal glass diffuser. At the centre sits a polished brass disc that anchors the design while helping reflect and diffuse the light evenly. The result is a smooth, ambient glow with no direct glare, ideal for settings that call for soft illumination and understated elegance. Available in two sizes, this glass edition continues Northern's focus on form, feeling, and Nordic sensibility.

Like its metal predecessor, the Glint Glass Wall Light features an integrated replaceable LED light source with mains phase dimming and comes with an option to either hardwire or use a cable with an in-line switch. The mouth-blown glass shade creates subtle visual texture and character, while the offset from the wall adds depth and visual interest. Whether installed as a statement piece or in a cluster, the Glint Glass brings warmth and calm to hallways, living rooms, and bedrooms. Its sculptural quality makes it equally suitable for residential and hospitality interiors.

PRODUCT SPECIFICATION

Light Source: 8W, 2700K, 800 Lumens

IP Code: 20

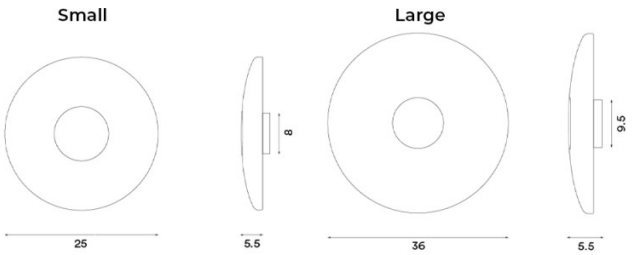

Dimming: Dimmable via mains phase dimming.

Dimensions:

Small:
Shade: Ø25cm
Depth: 5.5cm

Large:
Shade: Ø36cm
Depth: 5.5cm

Cable Length: 200cm
