Northern Tradition Linear LED Pendant

The Tradition Linear LED Pendant is the newest evolution of Northern's poetic textile lighting collection by Morten & Jonas. Elongated to a length of 120cm, this wide pendant light features the same knitted polyester textile shade as the original Tradition pendants, stretched over a metal structure to create a soft, cloud-like presence. Designed to float gracefully, its integrated LED casts a warm, diffused glow through an internal opal acrylic diffuser, ensuring light is soft yet effective with no direct glare.

Suspended by a steel wire, the Tradition Linear Pendant brings architectural structure to dining tables, office settings, kitchen islands, and hospitality spaces. Its integrated LED offers warm white light, with the option of dimming to suit the mood. Finished in off-white with considered construction details like a push-connector replaceable LED and concealed wire adjusters, this pendant continues Northern's commitment to craftsmanship and atmospheric design, marrying modernity with a tactile, domestic charm.
