PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Whirl LED Pendant

The Whirl Pendant is Tom Dixon's latest experiment in mirrored reflection. The Whirl was inspired by Optical Art – a movement that began in the 1960s, exploring optical perceptual effects through the precise manipulation of geometric shapes and block colours. The spiral design of the Whirl Pendant captivates with a hypnotic display, crafted to intrigue, and designed to dazzle.

When switched off, the Whirl's mirrored surface adds a decorative element to any space. When illuminated, the spiral design transforms light from within, reflecting it into a myriad of abstract patterns. The shade diffuses light into a glare-free glow that surrounds the pendant, adding a warm and ambient glow to the room. The Whirl pendant is available in two sizes, 30cm and 45cm, and in a gold, silver or copper mirrored finish. The decorative element of the Whirl Pendant makes it well-suited in the centre of a lounge or dining room, adding an ornamental touch that will captivate its audience. Display in rows above a long dining table to create a relaxing and welcoming ambience.

Please Note: A Dichroic filter is also available for this product. Reflecting a mix of colours throughout the shade for a more iridescent lighting effect. Contact us for pricing and information.

PRODUCT SPECIFICATION

Light Source: 6W, 3000K, 800 Lumens

IP Code: 20

Dimming: Dimmable using leading edge and trailing edge.

Dimensions:

30:
Ø30cm
Height: 26.1cm

45:
Ø45cm
Height: 41.1cm

Cable Length: 250cm
