PRODUCT DESCRIPTION

Designer: Maria Berntsen

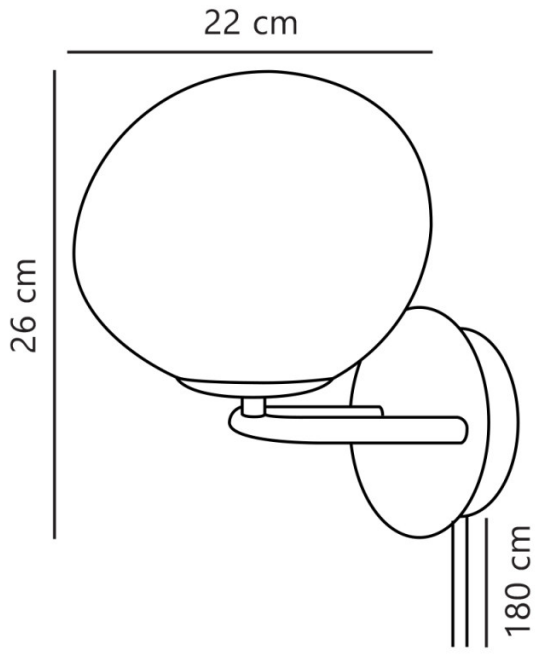

Design For The People Shapes Wall Light

Designed by Maria Bernsten, who drew inspiration from elegant and organically shaped jewellery, the Design For The People Shapes Wall Light is the newest addition to the collection. Harnessing a warm brass structure and asymmetrical mouth-blown glass diffuser, Shapes provides evenly dispersed, glare-free illumination that can be used in a range of interiors. The cable and plug include an in-line on/off switch, allowing you to easily control the lighting output, and making it perfect for bedside lighting or for a cosy reading nook.

The Shapes Wall Light adds a sophisticated touch to any interior and can be displayed individually, in pairs or alongside other designs in the **Shapes Collection** for a cohesive design scheme. Perfect for residential and commercial spaces, this eye-catching lighting solution adds a sophisticated warmth to your environment.
