PRODUCT DESCRIPTION

Designer: Robbie Llewellyn

Bert Frank Rinato LED Long Wall Light

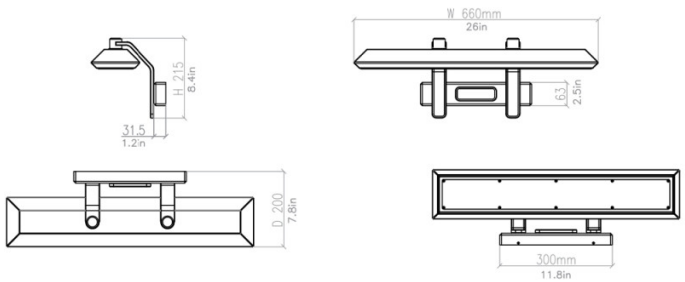

The Bert Frank Rinato Long Wall Light offers an elevated lighting solution, particularly suited to task applications or situations requiring broader light coverage. Its design centres on a long, powder-coated stainless-steel shade, held by symmetrical brass supports and softened by a strip of premium leather detailing.

Handcrafted in the UK with precision-engineered components, this wall light embodies Bert Frank's approach to contemporary Art Deco elegance. Its proportioned layout ensures even light distribution, making it ideal for desks, headboards, vanities or statement hallway installations. The integrated LED module delivers warm, consistent light with a sleek, architectural profile.

Please note, alternative leather colours are available for this product. Contact us for pricing and information.
